

April 23, 2022

To Family, Friends & Staff of The Jewish Home,

Yesterday we have identified a positive staff member that began to exhibit symptoms and tested positive. This brings out outbreak totals to **1 staff** member and **6 positive residents**. Facility continues communications with the Department of Health to ensure all recommended procedures are being followed. Positive residents remain on quarantine and positive the positive staff member has been quarantined immediately as well.

Department of Health regulation requires that all visitors must maintain **physical distancing** and wear a **face mask** throughout the visit with the resident. In addition, Department of Health requires nursing home visitors who test positive for COVID-19 to refrain from visiting the facility for **10 days** post positive test versus the 5 day quarantine required in the community.

Thank you for helping us keep our residents and staff safe!

Kristina
